

Evan Hahn (he/him)

1

I work for **Digital Democracy**, building an app called **Mapeo**. It is made for Indigenous communities to map and protect their land.

2

I got really into the **PNG** file format awhile back...please talk to me about it.

3

I used to hold the **speedrun record for a Tony Hawk game**, but I was recently beaten.

Mapeo

1

Mapeo helps **Indigenous communities map and protect their land.**

2

The app **doesn't require any internet access** but can sync with nearby users to build a collaborative map.

3

We have a **large partnerships team** (bigger than the tech team!) that works with Indigenous people, mostly in South America.

"Practical learnings from a DWeb novice"

About This talk discusses the DWeb space from the **perspective of a relative newbie**. I've only been working in it professionally for 7 months, and I hope that I can offer a unique perspective on the practical challenges presented by my work.

Format Lightning talk (7:00 + 2 min Q & A)

**Support
you
need** Would love feedback from people more enmeshed in the DWeb community.

Hopes and dreams

- + **Meet** other people in the DWeb space (I'm new!)
- + **Learn** about interesting DWeb and DWeb-adjacent topics, especially in the nonprofit or co-op spaces
- + **Offer knowledge** about practical deployment of an offline app

Evan Hahn

Backend Developer at Digital
Democracy
